#### New Ultra Rugged Scanner

The 3600 Ultra-Rugged Series is Zebra's next generation of industrial handheld scanners, purpose built from the ground up to set new standards for durability, performance and manageability. These scanners will eventually replace the Zebra 3400 & 3500 rugged series.

#### Why the 3600 Ultra-Rugged Series?

The Zebra 3600 scanner family is designed for "unstoppable performance" - purpose built to take more of a beating over a longer period of time, to scan faster and farther with greater accuracy and increased speed, and to be deployed faster and managed more efficiently across your business, ensuring the best return on your investment.

- **Ultra-Rugged:** The most rugged line of scanners ever produced, featuring industry-leading sealing, drop and tumble specifications, and reliable operation whether covered in dust or grease, sprayed with high pressure water jets or completely immersed in water.

- **Superior Scanning:** Designed from the ground up to provide superior scan performance in mission critical use cases — especially on less than perfect barcodes typically found in industrial environments

- **Manageability:** Zebra offers the time saving, productivity enhancing tools at no additional charge to help you manage your scanners from initial configuration to day-to-day operation

#### Options

1D Linear Imager 1D/2D Standard range - near to 28" 1D/2D DPM - Direct Part Mark 1D/2D Extended range - close to 60 feet

1D/2D OCR - Image Capture 1D/2D HD - 3mil high density

### The U2-Smart Inkjet Printer

The Anser U2 Standard Compact Printer is a thermal inkjet, low-cost, effective solution with exclusive fast drying non-smearing ink selections for porous and non-porous substrate applications.

The Anser U2 is capable of printing up to 4 lines of text, barcodes or logos, automatically count, print the date/time/shift and batch numbers. The cartridge system operates a "Hot Swap" mechanism to minimise downtime. The anti-shock mounting plate reduces "shock" damage from products hitting the side of the printer.

#### Key Features:

- 4-in-1 compact design, integrated with screen, controller printhead & ink cartridge
- Completely stand-alone, no PC required for operation
- Remote control keypad for user-friendly operation
- SD card slot design for easy software upgrades and data backup
- Easy to follow instructions – could be operational in minutes
- Easy ink cartridge replacement design with no maintenance
- Fast drying non-smearing ink available in black, blue, red (more colours available)
- No solvent consumption
- Anti-Shock mechanism design
- Log report for security check
- Capable of crisply printing 1D & 2D barcodes including EAN 128, Code 128, Code 39, Data-matrix, QR etc.
- Dust cover design helps to protect cartridge from getting damaged in dusty environment.
- USB 2.0 Compatible. Multiple functions including software update, data backup and stand-alone USB keyboard operation.
- Automatically identifies and selects the proper firing parameter to ensure the best print quality
- Zero-Maintenance. The ink cartridge design eliminates unnecessary printhead services; it is truly zero-maintenance and therefore decreases your total cost of ownership
- Software: Message Pro software is supplied for free on the supplied SD card for easy creation, editing and backup of messages to PC. Software customisation available upon request

# Linx 8" Tablets

## Linx Tough Tab 8 with Barcode Scanner and RFID

**D**esigned to be used in a variety of extreme environments, the Linx Tough Tab 8 is the perfect tablet to withstand everything that your business can throw at it.

Powered by a Quad-Core Intel® processor and Windows® 8.1 Pro operating system, the IP-67 rated tablet can withstand submersion in water, dusty environments and can integrate seamlessly into your business to give you complete control and visibility over every department.

### Three Models Available

Highlighted below is the top of the range tablet with integrated scanner and RFID, however there are 2 other models available, basic with no scanner or RFID and mid-range with 2D scanner. prices range from around £450 to £620.

#### **Built-in Stylus.**

A discreet built-in capacitive stylus provides precision navigation and is designed to aid the function of any workforce.

#### **Impact Protection.**

Rigorously designed and drop tested to IEC-60068232 standards up to 1.2M, the Tough Tab 8 is protected from accidental bumps with reinforced edge and corner protection.

#### **IP67 Certified.**

For complete peace-of-mind, IP67 certification ensures that the device is totally protected against dust and can withstand immersion into liquids up to a depth of 1 metre.

#### **Connectivity assured.**

Always keep connected wherever your team is based with Bluetooth 4.0, a 3G micro-SIM card slot and Wi-Fi 802.11 b/g/n connectivity. GPS tracking lets your team use location-based apps for increased accuracy and security wherever they are.

#### **Integrated barcode scanner.**

With built-in barcode scanning, look to the Linx Tough Tab 8 as the perfect solution for your business. Work faster, more efficiently and more effectively.

#### **Easy-hold hand strap.**

The Linx Tough Tab 8 easy-hold hand strap has a fully removable back plate that securely screws into the tablets main body. With 360-degree rotation, users can position their tablet in either vertical or horizontal orientation for ease of use.

#### **Embedded RFID.**

With the addition of RFID (Radio-frequency identification) into your business workflow, the Tough Tab 8 becomes an indispensable team member, tracking and reading RFID data with pin-point accuracy and seamlessly integrating into your business environment to improve productivity and stock control.
